Navi Mumbai, Maharashtra | vaishnavisarpatil2000@gmail.com | +91-9096316589

Career Objective

Motivated and detail-oriented IT graduate with hands-on experience in Linux Administration, Windows Server, Networking, and System Administration. Certified in RHCSA and CCNA with practical knowledge of TCP/IP, Routing & Switching, DNS, DHCP, SSH, Apache, and AWS. Seeking a Networking & Server Engineer position where I can apply my technical skills and grow in enterprise infrastructure management.

Academic Qualifications

Bachelor of Engineering (B.E.) in Information Technology

Mumbai University – Vidyalankar Institute of Technology, Wadala

May 2021 | **81.26%**

Diploma in Engineering

Dr. Babasaheb Ambedkar Technological University (DBATU) – Institute of Petrochemical Engineering, Raigad

March 2018 | **75.56%**

Secondary School Certificate (SSC)

State Board – Sir S.A. High School, Murud-Janjira

March 2015 | **81.80%**

Technical Skill

- **Operating Systems:** Red Hat Enterprise Linux 9, Windows 10
- **Networking:** TCP/IP, OSI Model, IPv4 & IPv6, Basic Subnetting, Static Routing, VLAN Fundamentals, NAT & PAT, DNS, DHCP, SSH, FTP, HTTP
- **Linux Administration:** User & Group Management, Package Management (YUM, DNF, RPM), Disk Partitioning, LVM, File Permissions
- **Server Administration:** Apache Web Server, SSH Remote Administration, Cron Jobs (crontab)
- **Security:** FirewallD, SELinux (Basic), Network Security Fundamentals
- **Scripting & Monitoring:** Basic Shell Scripting, System Monitoring (top, ps)
- **Tools & Platforms:** Cisco Packet Tracer, VMware, VirtualBox, AWS EC2

Project

- **Project Title:** Enterprise Bank Network Design and Implementation (CCNA)
Platform: Cisco Packet Tracer
Technologies: Cisco IOS, OSPF, Static Routing, ACLs, NAT/PAT, DHCP, VLANs, IPv4 Addressing, Site-to-Site VPN
- **Description:** Designed and implemented a secure multi-branch enterprise bank network connecting the Headquarters and Branch Offices. Configured OSPF dynamic routing with floating static routes for redundancy, implemented VLANs, DHCP, NAT/PAT, and ACLs to enhance network performance and security, and demonstrated site-to-site VPN connectivity for secure inter-branch communication. Performed routing verification, connectivity testing, and network troubleshooting using Cisco IOS commands.
